Más de 200 problemas resueltos de: Circuitos Electrónicos: análisis, simulación y diseño Norbert R. Malik. you. Hehe! Haha. Yeah, actually, all the advance information came from White Hae's messengers. The only thing I prepared was a pre-gift of a kimchi soup. When did you make the kimchi soup? It's always prepared for White Hae's luncheon. I went to the grocery store to get some raw materials, and I brought it to a friend's house. But it turns out that I wasn't the only person there, and they enjoyed the soup, so I just left the remaining soup there, too. The place I live in has a home-based industry which employs many elderly women, but women of my generation, including myself, don't have that kind of opportunity. Are there many elderly women in your area? It's quite rare, so it's very difficult to find elderly women. (laughs) But I think that the concept of 'elderly' is a bit different in Korea than in the West, or even in Japan. People often think of 'elderly' women as dowagers. (laughs) Did you come up with a lot of ideas for this collaboration? Well, I don't really know. I don't have the skills to conceptualize something. It's not my specialty. But I did suggest to White Hae that we use the material in the two CDs we released recently. But I don't know if she ever listened to them. You make CD covers? Yes, I design all the artworks. I also make all the CD cases. I make the characters that appear on the CD. It was a job that I took on in order to continue the 'love' for the artworks I created as an indie musician. When I have free time, I do it. However, the cover of White Hae's original CD was very simple. But when she asked me to design the cover for her new album, I knew I had to change the CD cover. When you say 'it's not my specialty', what do you mean? Well, my dad has been working as a tailor for about 40 years, and has been designing clothes and
