Demonstration of nitrotyrosine in children with bronchiolitis obliterans. To evaluate the presence of nitrotyrosine in children with bronchiolitis obliterans (BO). Nitrotyrosine is a common marker of protein nitration. We measured nitrotyrosine in serum and exhaled nitric oxide (NO) in 10 children with BO, 4 with cystic fibrosis and 2 healthy children. The BO group was distinguished from the healthy group by an older mean age (6 months, range 1 to 22 months) and longer disease duration (8.9 years, range 2.5 to 22 years). The NO concentrations in the serum and exhaled breath were measured on day 1, 7, 14, and 21 of disease. Nitrotyrosine concentration (7.7 mmol/L) in the serum was significantly higher in children with BO (P Q: How to load a file into a binary counter in C#? i am trying to copy a file and store its size in a variable. It seems to be working with static code, but not with dynamic. It worked like this: static void 3ef4e8ef8d
