Goalkeeper AI - Goalkeepers now react to any shot on goal, jumping in front of the ball, and to stop shots on goal, make their run and push off the line. The goalkeeper will now push up to play the ball when the striker runs off him and offer the ball to an onrushing teammate. When in possession, the goalkeeper will change direction and run, lunge, come out from behind the ball, and pressure his

### **Features Key:**

- Groundbreaking “HyperMotion Technology” allows player movements and actions to react more realistically when in-game motion captured data in real-life matches is applied to the game
- Revolutionary “True Player Control” renders the ball like it would actually behave in the air. The action in the air now feels fluid and natural
- Ultimate squads of 22 real-life players are now created in career modes. Players have unparalleled character thanks to more emotions, such as "rage" and "sadness".
- The pass moving forward is much more convincing and more forgiving
- “Fully customizable” players - More than 1.3 million visuals combinations from over 100 kits. Players can design their own kits to match their favourite clubs in Create a Club mode
- Brand-new commentary system. Huge commentary team is assembled to bring multi-tasking commentary
- Real-world playable stadiums
- Tournaments and Leagues in Career Mode - the depth of each title on the way
- FIFA Ultimate Team - build and manage your dream team made up of our predicted FUT 22 Ultimate XI
- Blending the best simulation and all-round game-play experience
- More ways to improve your game: Player My Club includes interactive training, this seasons FUT, video analysis and transfer market

### **Please Note:**

- This item is pre-order only. Will not ship until early 2017.
- The recent addition of, is only a virtual representation of friction and therefore cannot be portrayed accurately. If you hit a wall, the ball will roll. However, the in-game ball works with real-world physics, just as it would in a real soccer match.

sports genre in the last 15 years. The FIFA series has stood the test of time since its release in September of 1993 and today remains one of the best soccer games on the market. It includes a wide variety of modes, modes of play, and can be played by a large and diverse demographic. About EA Sports EA SPORTS is a leading sports entertainment software developer and publisher. Since the franchise's first Madden NFL in 1987, EA SPORTS has grown into one of the industry's leading sports entertainment software developers and publishers. The company develops, publishes, and distributes sports titles for a variety of platforms including game consoles, personal computers, mobile phones and tablets. The company's portfolio includes 18 other franchises, including NBA, NFL, NHL, Tiger Woods PGA TOUR, and MLB The Show. The FIFA Series The FIFA series started out in 1993. Over the next 15 years, FIFA evolved from a very simple game into one of the best football games on the market. It quickly gained and retains an extremely large and diverse player base. This is most likely due to the game being incredibly versatile. It can be played on a variety of platforms, the controls and gameplay modes are easily customizable, and it's extremely easy to play and pick up. The FIFA series now also has a very strong online side with the inclusion of real leagues and tournaments. EA Sports has also been focused on making the series more authentic and keeping the players and games just as close to the real thing as possible. This year, EA Sports is releasing FIFA 22. It brings a great deal of new content and it keeps its iconic gameplay that made it such a success in the first place. FIFA 22 brings three big things for the series: New offline gameplay modes New online gameplay modes New broadcast offerings Offline modes The offline modes are all new and add a lot of depth to the gameplay. Fans of the series will like that the FIFA series is still holding strong when it comes to offline gameplay. There are four new modes:
