CD/DVD Burner Software - Rip, Rip, Rip! Everyone has it. CDs. DVDs. CD/DVD combo disks. You're given those by your friends, or you just pick them up at the shop. But even a professional can't do without one. That's what we're talking about here. Why CDs? Why DVDs? Why both? Why CD/DVD combos? Why... you get the idea. In fact, people with no knowledge whatsoever of computer usage don't give any thought to it. The box gets shoved into the corner, because who needs to waste time handling the one or two different disks? The other disks don't need any worrying, either: They're not going to scratch each other, are they?... Full review @ CDBurnt Software One of the first DVD burning tools I used was the freeware DVD-Burner program I found at It was my first step in trying to learn about manipulating DVDs and I've used it ever since, with no problem. However, I always worried about its usefulness with respect to high quality digital video files, especially AVI. Here are some issues that may occur when burning AVI files with DVD-Burner: FIRST: DVD-Burner does not record chapter marks, so you'll be forced to edit the AVI file so that the chapters are visible. Most editing programs can do the job, but some still require some manual cleanup. It seems to me that this is going to be a very common problem. SECOND: DVD-Burner does not include any "Clone" option in its output menu. If you want your DVD to look like the original DVD, you have to do that manually in some of the editing programs. This is potentially more annoying than the first problem, because it's hard to keep up with the DVD images as they're being manipulated. But it's still more hassle than necessary. And you'll end up paying more in editing time than you save by using DVD-Burner. THIRD: Editing AVI files with chapter marks may be time consuming, if you don't know how to handle the problem. You may have to re-assign the other chapter markers manually. You

What's New in the?

■■ Total DVD Backup & Clone software is to backup your dvd/hard disk with both copy and cloned image. ■■ The software allow you to backup/clone DVD, take backup/clone image to your computer, burn image to DVD-video disc and also copy title, chapter from DVD. ■■ You can extract title, chapter and movie from backup/clone DVD or DVD disc and burn back to DVD disc. ■■ Total DVD Backup & Clone can be used to backup/clone your DVD or Blu-ray discs as well as.vob files. ■■ You can also burn backup/clone DVD directly to create a perfect DVD copy. ■■ You can also customize DVD copy to remove DVD region code, CSS protection and UOPs. ■■ Total DVD Backup & Clone can help you to put DVD/Blu-ray/ISO file on portable device with HD images, no longer need to copy DVD/Blu-ray/ISO file. ■■ You can backup/clone DVD/Blu-ray/ISO file on DVD/Blu-ray/HD-DVD/HDTV and HMDI devices with 2-step copy and auto detection. ■■ Total DVD Backup & Clone also can mount DVD/Blu-ray/ISO image to virtual drive and you can copy/clone as DVD/Blu-ray/HD/ISO. ■■ You can also make VOB/ISO file auto burn to DVD/Blu-ray/HD-DVD/HDTV/HMDI with virtual DVD burner. ■■ The software supported more than 40 languages.
